Purpose

This is a Discipleship guide for leaders to teach and create effective discussion with a group of believers. Each chapter has two parts that can be used during a discipleship group meeting.

Verse outline:

The verse outline can be used either as a way to teach the topic or reference point to base discussion. The verse outline can be summarized or used for a full time of teaching, depending on the need of the group.

Discussion Questions:

These questions are based upon the outline but do not require the outline to be effective. The “Ice Breaker” gives the group an opportunity to talk and get to know one another before diving into deeper concepts. The main body of the questions correspond with the outline on the topic. If there is time remaining or you want to leave the group with something to study and research, the “Digging Deeper” question allows for deeper concepts to be addressed outside the usual meeting time.
